This is Us

At Home with Scrabo

'You know you are home when you see Scrabo and we see it every day'

East Side Dinners

No Stitch Cushions

Birds of a Feather Flock Together

The American Patchwork Quilt

No matter where we go in the world, it's good to be home again

Inside out and outside in

Art based research presents new opportunities for people living with dementia to engage and express themselves without a focus on language. To explore the lived experience within technology enriched housing for people living with dementia, sixty-four participants took part in forty-eight art-based focus groups across eight housing schemes within Northern Ireland. The output of the qualitative research is illustrated in this poster.
